To,

Hiring Manager,

Apotex Inc.

Richmond Hill, ON L4C 5H2

Subject: Application for Project Leader, Supply Chain Marketed Products

Dear Hiring Manager,

I am writing to express my interest in the position of **Project Leader, Supply Chain Marketed Products** at Apotex Inc. With over 12 years of progressive experience in the pharmaceutical industry, I have honed my expertise in Project Management, Supply Chain, and Sales & Marketing, delivering measurable improvements in operations and business outcomes.

In my previous role at **Zydus Lifesciences Ltd.**, I led cross-functional teams to plan and execute complex projects, achieving a **25% reduction in lead time** and a **14% decrease in inventory holding costs** through process optimization. My proficiency in demand forecasting and supply chain analytics has enabled efficient inventory management and improved on-time delivery performance by **12%**. Additionally, I supported the successful implementation of SAP Hana ERP, streamlining data management across operations.

I take pride in my ability to lead initiatives that balance operational efficiency with regulatory compliance. With a strategic mindset and strong problem-solving skills, I have consistently driven results by aligning projects with organizational goals and addressing stakeholder priorities effectively.

I am particularly drawn to this role because of its focus on supply chain innovation and marketed products. I am confident that my experience in end-to-end supply chain operations, combined with my project leadership capabilities, will allow me to contribute significantly to Apotex's success in delivering value to patients and stakeholders alike.

I have attached my resume for your review and would welcome the opportunity to discuss how my background and skills align with your team's needs. I can be reached at 437-545-1001 or rahulkaswala@gmail.com at your convenience.

Thank you for considering my application. I look forward to the possibility of contributing to Apotex Inc. as a Project Leader in Supply Chain Marketed Products.

Sincerely,

Rahul Kaswala
